Three overlapping white UI panels with rounded corners and a teal accent. The top panel shows 'Identity card' verification with a checklist: 'Template validation', 'Font validation', 'Date validation', and 'Fraudulent signs'. The middle panel shows a document with a Mastercard logo and a checklist with three empty boxes. The bottom panel shows '3D Liveness' verification with a checklist: '3D Liveness', 'Face match', and 'Fraudulent signs'. Each panel includes a photo of a woman's face and a teal toggle switch in the top right corner.

Commission overviews

5. Calculate your revenues

Revenues

Commission distribution

Revenues

Calculation examples

Calculation example A

A client purchases a virtual office at your location through Flexado. The price is €80 per month. As long as the customer uses this service, you will receive €40 a month. Are 30 customers registered at your location via Flexado? Then you will receive €1,200 a month.

Calculation example B

A client is looking for an office space. Through Flexado, the client comes into contact with your location. When the customer has signed the lease with you, Flexado invoices 10% of the (annual) income. So for a lease worth €12,000, you earn €10,800.

went before you.

 Customers rate us with an
average of **4,6**

Very pleasant cooperation and direct contact
opportunity with the whole team of Flexado.
Hopefully we will continue to build a great
cooperation and future between Flexado and
Euro Offices!

Jan Schilder - Euro Companies

4,6 

Good service, always nice contact with the
people at Flexado.

Thom van Wijk - Scalehub Offices

Flexado is our regular partner for flexible
solutions for our clients. When a client is
looking for a flex office, we routinely refer
them to Flexado because we know it always
works out. That's nice to know.

Arno Kooijman, Founder Adworth Internet Marketing
